The Illex Nitro Shad 90 - sinking soft bait for successful predator fishing

Immerse yourself in the world of successful predator fishing with the **Illex Nitro Shad 90**, a sinking shad-type **soft bait**. Originally developed for sea bass fishing, this **Illex soft bait** has also proven to be extremely catchy in freshwater. Its versatility allows you to fish both linearly and vertically, which is why we also offer it in typical freshwater designs.

The **Nitro Shad** is romatised with the special "Nitro Booster" and perfectly mounted on the original [Illex Lead Heads Nitro Shad Head 2](#). Even experienced anglers praise its sensational running characteristics time and time again. It can even be used effectively with round-head jigs. Its tail not only wiggles enticingly, the entire body 'rolls' extremely, which even the shyest predatory fish cannot resist.

For even more attraction, you can also coat this lure with the [Illex Nitro Booster Attractant Cream](#) and look forward to amazing results! With the **Nitro Shad**, anglers Thomas Engert and Marc Ptacovsky have already won the World Predator Championship at Lac de Bourget in France in 2014 and landed an impressive pike when winning the World Predator Classic in 2021. An absolute must-have for every serious predator angler!
