The fish catching properties of our NITRO SHAD baits are legendary both in freshwater and sea fishing circles. This year the range is further boosted by the addition of a range of new colours working in the UV (Ultra Violet) spectrum. These new colours have been specifically developed for coloured waters and/or low light levels. Their versatility in low light conditions has been proved time and again by our teams of field testers and competition anglers.

This latest Nitro Shad is sure to become every bit as popular as the rest of the range! Developed for bass fishing, this realistic looking lure perfectly resembles a small prey fish. The small body size and supple viscosity make the Nitro Squad 65 perfect for working up in the water. We recommend that you use our leaded Nitro Squad heads between 7 and 21g coupled with an Ashura Element Rider S 210M Stalking Special rod and fish the Nitro Shad 65 using either light traction or linear retrieves. This little shad with its pronounced rolling action is also deadly for perch and zander. The lure is flavoured with our famous Nitro Booster. Do not hesitate to add some Nitro Booster cream to the lure for that extra fish attracting edge!
