The Easy Shiner combines the body of the Shad Impact with the fantastic tail action of the Swing Impact. These versatile swim baits come in three sizes to match any fishing conditions. Keitech's original two-tone color injection process uses different types of salted plastics to achieve fantastic balance and action. These baits can be fished many ways. The 3" works great on a small Super Round Jig head and the drop shot. The 4" has produced outstanding results on the jig head, Texas Rigged and the Alabama rig. Lots of big fish are coming flipping the 5" and on the Carolina and Alabama Rigs. The Easy Shiner has a wide-wobbling rolling action that drives predator fish wild!
