Soft bait refined with a shrimp aroma.

from 8,99 €* 8,99 €

Discover versatility: The Nays VNM rubber fish for successful fishing.

The **Nays VNM Softbait** is a unique product that features a high frequency run and easy rolling action, even on a light jig head or slow sinking. Enriched with an enticing shrimp aroma and free from toxic plasticisers, this rubber bait is available in a variety of decors and sizes to suit a wide range of angling needs. The **Nays VNM (Venom) Soft Bait** offers an impressive range of sizes and weights, available in convenient pack sizes, so you always have the right option for your next fishing adventure.

The Nays VNM rubber fish is renowned for its adaptability to a wide range of fishing techniques and environments, making it an essential bait for enthusiasts. Here are some of the techniques and applications associated with the Nays VNM rubber fish:

Popular techniques:

- **Traditional Jigging:** The Nays VNM is predominantly used traditionally on the jig head, with the 5-inch (12.7cm) version in particular being a preferred choice for zander fishing.
- **Offset hook use:** Thanks to the special slot on the belly and back of the rubber fish, the Nays VNM can also be used effectively with offset hooks in weedy waters.
- **Finesse approaches:** The Nays VNM combines excellently with various finesse techniques such as the Texas Rig, Carolina Rig, Free Rig and Kickback Rig, making it particularly attractive for cautious predators.
- **As a trailer for chatter baits and spinnerbaits:** The Nays VNM is also suitable as a trailer for chatter baits and spinnerbaits, which extends its usability.

Areas of use for Nays VNM:

- **Target species:** The Nays VNM is optimal for perch, zander and pike fishing, and has proven effective in attracting a wide range of predatory fish.
- **Seasonal use:** The Nays VNM 43 is a particularly good choice for fishing for large perch and zander in the warmer months.
- **Size-dependent use:** Depending on its size, the Nays VNM is suitable for different predator species - smaller models for perch, medium to larger models for zander and the largest models for pike or catfish.

These different techniques and areas of use underline that the **Nays VNM rubber fish** is a versatile and efficient lure that can be useful in many different fishing environments. Its well thought-out design and the flexibility to use it with different rigs and as a trailer make it an essential part of any fishing box.
