

Pontoon21 Awaruna Softbait 423 Brown - Hornet

Pontoon21

Product number: PT-AW-423-X

Softlure with extraordinary, sparky swimming features and a wide range of mounting possibilities.

0,00 €* 0,00 €

Ingenious body design together with the tail's shape provides extraordinary swimming characteristics of Awaruna. The ide-ribbing enriches Awaruna's swim action with new attractive nuances. On the inside a hollow groove gives additional flexibility to the body and simplifies making rigs including the most complicated Double Hook Rig (see pictures of various rigging methods). You also can input additional weights into the groove to achieve the necessary balance and sinking rate in case of Wacky rigging.
