

Illex Softlure Magic May Fly 6.6cm 8pcs.

Illex

Product number: IL-MGMF66

3 in 1 creature for infinite application possibilities.

9,50 €* 9,50 €

The Magic May Fly is an innovative 3 in 1 creature. The silhouette corresponds to an invertebrate insect (may fly in the larval stage) and can be used for all kinds of ultralight montages (weightless, drop shot, split shot, micro jig, light Texas ...). The tentacles and the shape of the body make this creature extremely flexible and attractive. With the Magic May Fly you can outsmart any fish species that stalk such larvae, such as perch, chub, barbel, bass, trout, etc. But that's not all: the body is rejuvenated at one point, where you can separate the bait into two parts. One half now looks like a caterpillar or a maggot, which you can offer on a small lead head perfectly at the ground. The other half is a floating insect, ideal for seducing fish that absorb aboriginal food on the surface. Depending on the taste of the fish you have three variants in a single bait!

- Model: Floating
- Length: 6.6 cm - 2.60 inches
- Weight: 1.2 g - 0.04 oz
