The 3D Technology Savage Gear is the first to combine 3D scanning and 3D modeling in the quest to produce the perfect lure in appearance and swimming action! By scanning real fish and combining it with geometrical shapes, Savage Gear has been able to create lures that look and swim as close to the real things as possible. Utilizing high grade components and quality hooks, and paintjobs that Savage Gear has become famous for has resulted in a series of lures that will revolutionize your fishing!
