When the fish finally tear up your KVD Toad Buzz's soft plastic frog, replace it with the Strike King® KVD Perfect Plastic Gurgle Toad. This is the same super-soft, hard-kicking bait that comes pre-rigged on the Strike King KVD Toad Buzz, and it will provide the incredible high-speed action as the now-shredded original.

Enterprising anglers will quickly find other ways to deploy this killer toad as well – on a frog hook or weighted swimbait hook, perhaps. It's also great fished "naked," on and around cover with a simple wide gap hook.

- Frog style lure
- Curly leg design delivers increased 'gurgling' attraction and bubble trail
- Multiple rigging options for a number of presentations
- Can be used as a replacement for Toad on the Strike King KVD Toad Buzz
