If you've never dropshotted a jerkbait, now's the time. The Strike King® 3X Z-Too Jerkbait answers the needs of the small circle of anglers who've actually tried this deadly secret presentation. Smaller than a standard jerkbait, the 3X Z-Too also floats higher, is more flexible (translation: it has a killer shimmy), and is far more durable. It's made of a proprietary Elaztech™ material that can be pulled at, nipped at, and chomped on time after time without tearing, degrading, or losing elasticity. So, good luck to any bass who tries to tear your nose-hooked 3X Z-Too Jerkbait off that light-wire dropshot hook; the odds of a hookup are extremely high! Salt-impregnated to add even more buoyancy and temptation. Also great for standard presentations; molded-in belly slot for easy rigging.
