The Strike King® KVD Perfect Plastics Finesse Worm is the softest, saltiest plastic ever produced, and even better, features Strike King's exclusive Coffee Scent technology. Coffee adds to the appeal, as it masks human scent and oils. Together with the extra salt, it convinces fish to bite and hold on longer, increasing your chance of a solid hookup. Yet even with the added salt, the KVD Perfect Plastics Finesse Worm remains soft, pliable, and fishable! Extremely versatile, the KVD Perfect Plastics Finesse Worm is deadly on a shaky head, dances enticingly on a drop shot rig, and is Kevin VanDam's go-to for split-shotting and mojo rigging.
