

Zattics Riot Softbait 10,5 cm

Zattics

Product number: ZTS-RIOT

The Zattics RIOT is a high frequency running rubber fish.

8,99 €* 8,99 €

Its flanking action profile makes it particularly effective when targeting zander or big perch. The lure's fast flanking action imitates a fleeing prey fish perfectly and reaches the predator's lateral line organ before it even sees the lure. The robust rubber compound withstands numerous bites but is soft enough to give the lure the perfect movement. The ideal lure for zander fishing.

In addition, the Zattics Baits attract hungry hunters with their subtle squid flavour. The maximum size eye provides a point of aggression for the predator, ensuring that bites fall on the front part of the body. The Zattics colour range ensures you have the right bait for all weather and water conditions.

Ideal for jigging and vertical fishing with the Zattics Jig Hooks in 3/0 or 4/0.

- High frequency shad
- Medium-soft material
- Light Squid Flavour
- Large, dark eye as point of aggression
- Free from toxic plasticisers (without BPA & phthalates)

Zattics Color-Range:

Color 01 – Sand-coloured back peppered with red, black and golden flakes combined with milky-white belly, slightly UV-active.

Color 02 – Rose-pink back with a milky-pearl, slightly transparent belly, high UV activity.
