

Fox Rage Ultra UV Spinner

Fox Rage

Product number: FR-UUVS

Three new designs join our popular UV Spinner range to add more flashy attraction to your lure fishing.

from 5,99 €* 5,99 €

Discover the Fox Rage Ultra UV Spinner, an angling perfection. The silver inside of the spinner blade simulates flashing target fish and increases your chances of catching them. The willow blade shape ensures optimal running and maximised flashing.

The quality of this spinner is also evident in its brass body weight, which provides excellent balance and control. This allows you to cast the spinner precisely and attract fish more effectively.

Another plus point of the Fox Rage Ultra UV Spinner is the red fibres on the hook, which serve as an additional bite stimulus. This detail can help to increase the attention of the fish and improve your chances of catching them.

The spinner is available in two sizes: 26g (size 6, 2/0 VMC treble, 7.5x3cm blade) and 11g (size 3, size 4 VMC treble, 4x1.5cm blade). High quality throughout, the Fox Rage Ultra UV Spinner will enhance your fishing experience. Take this opportunity for an effective and quality spinner.
