## Discover the Illex Tricoroll Spoon - The pinnacle of salmonid fishing

### A masterpiece of lure technology

The **Illex Tricoroll Spoon lure** is not just another lure in your fishing arsenal. Developed as the ultimate solution for fishing for sea trout and other salmonids, this spoon lure combines the best of both worlds: the proven running properties of the famous Tricoroll lures and a special construction that makes it the king of the current.

### Perfection in form and function

With its slim, specially curved body, the Tricoroll Spoon retains its stability even in turbulent waters. This unique shape prevents it from rising too high or rotating, making it the ideal tool for fishing in large lakes and strong currents.

### Two sizes for maximum flexibility

Available in two weights - 10g and 14g - the Tricoroll Spoon allows for flexible use in different fishing conditions and for a variety of target fish. Whether sea trout, trout, mefo, asp, pike, perch, cod, cod or sea bass, this spoon is your secret weapon.

### Minnow-like behaviour with added attraction

The wide rolling action and minnow-like flashing behaviour make the Tricoroll Spoon irresistible. The recess in the spoon prevents the spoon from getting out of the water and minimises rotation, making it

particularly attractive for target fish.

## **Versatile in use**

The Illex Tricoroll Spoon can be both retrieved and twitched, giving you the same feel as when using minnows. Its ability to wobble and lose balance perfectly imitates a weak, small fish, making it an irresistible target.

## **Ideal for rivers and large lakes**

Especially in rivers, the Tricoroll Spoon has proven to be extremely successful, but its versatility also makes it a favourite for large lakes and when fishing for larger salmonids.

## **Key features:**

- Slim, specially curved body for stability in the current
- Available in 10g and 14g for flexibility of use
- Attractive, wide rolling action similar to a minnow
- A recess in the spoon prevents the spoon from coming out of the water and minimises rotation
- Ideal for fishing for a variety of target fish such as sea trout, pike and more
- Effective in rivers and large lakes

Make the **Illex Tricoroll Spoon** spoon the new star in your tackle box and experience how it takes your fishing success to a new level. Now available for anglers looking for only the best for their passion.
