The Timon Quattro Spoons are a high quality series of swinging spoonbaits from Japan and are equipped with a single hook. They are best suited for light and ultralight spinning fishing.

The typical trout spoon shape of the Quattro Spoons are optimally suitable for fishing on trouts and other predator fish species. The spoon has got two eyelets with split rings. The split ring on the bottom is equipped with a small single hook. Its swinging movement makes it possible to retrieve the spoon different. The monotonous retrieving or the spin-stop technique promises a high success at any speed. It is best to use the Quattro Spoon in standing or slowly flowing trout waters. The weight is distributed over the back of the bait which gives it excellent throwing characteristics.
