

River2Sea Bully Wa 55 II Rubber Frog

River2Sea

Product number: R2S-BW55

Rubber frog for perch hunting.

11,99 €* 11,99 €

Bully Wa has grown up! we took the best walking frog on the market and added some features to make it perform better. Bully Wa is the original keeled belly frog that walks easy on open water around cover, and now thanks to a sealed hook channel, it is one of the most buoyant frogs on the market. In addition, it is no longer necessary to press water on the lure, as no water can penetrate the lure due to the closed body.

An Increased belly profile gives Bully Wa a larger profile to draw big strikes, and even better hook gap space for better hookups. Bully a has been bullying bass into striking for years and it just grew up from schoolyard bully to a true enforcer.
