The Daiwa **Viento HD** – which features the globally successful Twitchin' Bar – offers advantages at many fishing techniques especially at vertical fishing and baitcasting. By using the Twitchin' Bar the lure can be presented in a completely new fashion and the depth at vertical fishing can be adjusted ultimately convenient, which is pleasant when you need one hand for steering the boat. The Speed-Shaft system in combination with the finely adjustable magnetic drag furthermore guarantees long casting distances while the Magforce drag system reliably prevents line tanglings.
