

Salmo Rattlin Hornet Crankbait Holo Red Perch

Salmo

Product number: RHXXF-HRP

Classic in a new colour

from 9,49 €* 9,49 €

The World ranks the Salmo Hornet as one of the best lures of all times. Now Salmo has introduced the Rattlin Hornet floating/sinking crankbait created in cooperation with the best American anglers. Expect the same rod shaking action that has made the classic Hornet one of the best fish catchers ever. Trolling or casting, the Rattlin Hornet is a new generation of Salmo lures that changes forever what anglers should expect from small bite size crankbait. The Rattlin Hornet has a blend of features never before put into such a small lure. After all, most people think small lures are for small fish ... WRONG! When wielded properly, the opposite becomes true. Clear evidence is the success of the classic Salmo Hornet. The Rattlin Hornet boasts features like an unbreakable polycarbonate lip, oval split rings, Mustad KVD Elite Triple Grip hooks, glass bead rattle chamber, and, if that's not enough, the Rattlin Hornet even has the Salmo Infinity Cast System (SICS) to help make longer casts. Something that only the best crankbaits in the world offer. The 4,5 is designed to cast nearly 50% further than the Hornet 4 and 20% further than the Hornet 5! Just 4,5 cm total length, this lure can reach a maximum depth of 1,8 m casting and 3,5 m while trolling.
