Feelfree Kingfisher Seat

The Feelfree Kingfisher seat is the ultimate option for paddlers when it comes to comfort seating. It's unique construction includes an internal skeleton so the seat retains its shape and comfort for hour after hour with no adjustment. The seat base is beefy and plush helping make your paddling experience a more enjoyable one regardless of how long you plan to paddle. Plus, paddlers will appreciate its dedicated lumbar cushion that provides extra support in the lower back area.
