

Illex lure Dexter 120 S sinking 12cm 60g

Illex

Product number: IL-DXT120S

The Dexter jerk has made a great name for itself on the European pike circuit.

24,95 €* 24,95 €

This bait is so easy to use whether you're a pro or a complete beginner! Great for prospecting weed beds or overhanging trees worked back slowly with plenty of pauses. The lure has a sharp rolling action on the drop that can be punctuated by sharp jerks pulling the bait back to the surface. Once you find the right action be ready for some pretty violent takes! We have fitted a 1.4mm stainless "wire thru" wire to reinforce the hooks that will handle light tropical fishing for species like tarpon, barracuda and small trevally. A special prism shaped chamber coated with grooves contains two metal beads that bounce off the prism creating a unique sound signal as well as adding a visual trigger through light refraction.
