

Jarocells Portable Storm Case Lithium Battery 12V 100Ah

Jarocells

Product number: JR-BTP100.12

Water- and shockproof lithium battery in a convenient transport case.

from 1.399,50 €* 1.399,50 €

The JARO-BTP100.12 Portable is a real powerhouse. This lithium battery is widely used for installation in boats, from small sloops to larger sport boats. Like all other batteries in this series, the battery is built into the extremely stable, waterproof Storm Case.

The JARO-BTP100.12 has a usable capacity of not less than 1.2kWh, whereby a lead acid battery of 100Ah can only deliver 0.65kWh. At 14.3kg, the housing is easy to handle.

The battery is also available as a 24V 50Ah version. This has the same energy content, but is constructed as 24V.

This battery can be read with the Jarocells app for Android and iOS.

Connections: Anderson Connector, 12V Cigarette Lighter Connector, 2 x USB
