FeelFree

Product number: FFK-OS-SA

Retrofittable seat adjuster for a perfect distance to the pedals of the Overdrive System.

109,90 €/Stück

109,90 € * 109,90 €

The **FeelFree Overdrive Seat Adjuster** is an unalterable accessoire for making the use of the Overdrive System as comfortable as possible, because now the Gravity Seat can be adjusted in a way that the distance to the pedals is perfect for you.

Just attach the cradle on the lower tail end of the Gravity Seat like painted in the installation manual and fix it like the Gravity Seat before on your kayak. Now you can shift your seat as far as necessary to the front.
