

Hideup HU Shad 60SP Lure 7g suspending

Hideup

Product number: HU-SHD60SP

Small allround lure with outstanding characteristics.

0,00 €* 0,00 €

The HU Shad is a small, universal wobbler that is loved by all predators. Its simple form appeals to pike, perch, zander and large trout hunting in mid-water. The deceptively real running behavior, the natural or eye-catching colors as well as the fine, quiet clicking sound of the rattle further enhance the attractiveness of the HU Shad. Thanks to the weight set in the front area, very long casts are possible despite the low weight. The fine, ultra-sharp, Japanese hooks penetrate into any fish's mouth, but can be easily removed thanks to the very small barbs, without damaging the fish more.

Each Shad is already delivered with a snap attached to the diving bucket.

- Available in 10 astonishing colors
- Length: 6.0 cm
- Weight: 7.0 g
- Diving depth: 1.0 - 1.5 m
