

Jarocells Portable Storm Case Lithium Battery 12V 125Ah

Jarocells

Product number: JR-BTP125.12

Water- and shockproof lithium battery in a convenient transport case.

from 1.669,50 €* 1.669,50 €

With its 125Ah lithium power, the JARO-BTP125.12 is the ultimate power supplier. The 1.5kWh power in an easy-to-use, portable case is unique. This battery is difficult to drain even with an electric motor and provides hours of fun. Then of course it's great if you can quickly recharge it. If you use the 40A charger, you can recharge the battery in about three and a half hours. The battery is not impressed by quick discharge and full recharge. The battery life is between 2000 and 5000 times the charging and discharging process. In this way, the battery is retained for many years. The JARO-BTP125.12 can be used with motors up to 80lbs and is also ideal for powering a converter with 12V > 220V. The housing is equipped with all connections that you may need, e.g. double USB, 12V car plug and Anderson connection for your motorcycle. This battery can be read with the Jarocells app for Android and iOS.

Connections: Anderson Connector, 12V Cigarette Lighter Connector, 2 x USB
