Okuma Inspira ISX spinning reel: The perfection of fishing

The brand new **Okuma Inspira ISX Spinnrolle** sets a new standard of innovation in the spinning reel market. With its groundbreaking metal **Torsion Control Armor (TCA)-Technologie**, it offers up to 5 times more torsional and bending stiffness, paired with a double-arm body design. The result? Unrivalled stability, smoothness and power that takes your fishing experience to the next level.

Features:

- **Lightweight and stable:** the aluminium construction of the **Torsion Control Armor (TCA)** offers the perfect combination of lightness and stability.
- **Flite Drive System:** The **Flite Drive System** increases gear stability and ensures smooth running.
- **Stabilised gearbox:** The **Inspira ISX** has a gearbox that has been specially developed for maximum stability.
- **Brake system:** The multi-disc carbonite and stainless steel brake disc system ensures precise brake control in every situation.
- **Stainless steel bearings:** With 8BB+1RB stainless steel bearings, the reel offers ultimate smoothness and durability.
- **Quick-Set reel bearing:** The Quick-Set reel bearing with backstop enables quick and easy adjustments during fishing.
- **High-performance gear:** The oversized HDGII main gear with machine-cut brass pinion ensures reliable performance.
- **Comfortable handle:** The machined aluminium handle with screw mechanism fits comfortably in the hand and offers optimum control.
- **Comfortable handles:** The lightweight TPE handle knobs ensure maximum comfort, even on long

fishing trips.

- **Braided line spool:** The milled aluminium line spool is robust and reliable.
- **Heavy-duty bail wire:** The solid aluminium bail wire is extremely durable and resistant.
- **RESII and EFR-II:** The computer-balanced rotor equalising system (RESII) and the smooth-flowing roller system with DLC coating (EFR-II) ensure consistent and reliable performance.

The **Okuma Inspira ISX Spinnrolle** is the perfect choice for anglers who demand the highest standards of stability, performance and comfort. With its innovative technology and robust design, it revolutionises the fishing experience and lets you enjoy every adventure on the water to the full.
