Discover the Bullseye Run & Gun Access S270 5-28g spinning rod: Your new companion on the water

The **Bullseye Run & Gun Access S270 5-28g spinning rod** is the result of a close collaboration between Bullseye and Herbert Ziereis, who embodies the motto "Run & Gun". Over a period of two years, they developed their own rod concept, which is convincing both in action and design.

The blank: the heart of your new spinning rod

The blank of this rod measures 270 cm in length and allows a casting weight between 5-28g. Thanks to its X-Fast action, the rod offers a semi-parabolic action that transitions into a powerful backbone to work efficiently even under full load and keep the upper hand even in the hot phase of drilling a capital fish.

The handle: for a safe and comfortable grip

The high-quality EVA handle, complemented by a longer handle and a split grip with a beautiful natural cork in the end, allows for perfect lure handling. Whether fishing with drop-shot, C-Rig (Carolina Rig), T-Rig (Texas Rig), K-Rig (Kick Back Rig), jig spinners or twitchbaits, this incredibly versatile rod always does its job perfectly.

The reel seat: comfort and control combined

The ergonomically designed Fuji VSS 16 reel seat provides a perfect grip and fatigue-free fishing.

The rings: quality components for maximum performance

Equipped with 8+1 Fuji K SS Alconite guides, the rod offers maximum casting distance, aiming accuracy and perfect power distribution on the blank.

Technical data:

- Length: 270cm
- Casting weight: 5-28g
- Transport length: 140cm
- Guides: Fuji K SS Alconite 8+1
- Reel seat: Fuji VSS 16
