

Stroft Leader spools system with cutter rings

Stroft

Product number: ST-CR-SYS

Leader spools system for 3 or 5 leaders with cutter rings for easier use and storage.

from 24,59 €* 24,59 €

Stroft Leader spools system with cutter rings

The cutter rings rotate (by snap-in connections) on the leader spools. They are easy to postpone and also easy to remove again. Because the rings are wider than the spools, a closed system is build, that's easy to handle and protects the leader wires against environmental influences and UV rays.

Thus, the cutter rings are always reusable. If a leader coil is empty, cutter ring and cord donation ring are easy to remove and put on a new full spool.
