Drop-Shot Softbait from Jenzi - Inshore Trailer 3.5" - 8,5cm. Dropshot, simply good! Hardly any other fishing method is so successful for catching unique predatory fish. The bait moves (naturally) through the water, imitating an injured fish - an easy prey.

Texas Rig - This is how its done: light pulses with the rod tip while the bait is sinking; with short breaks so that the slack in the line gives the bait the basic movements - making it such a successful fishing method. Bass, Perch and Trout can hardly resist the temptation.
