

## Daiwa Tournament Wise Minnow 50 FS Lure 5,2g

An exceptional lure for ultra-light fishing. By the rather fast sinking behavior the Wise Minnow 50FS is ideal to reach depth quickly, which is required when targeting deeper spots in streams and rivers. The tungsten weight is fixed inside the body and provides good stability to the lure even in stronger currents. The Wise Minnow has flanking movements and is a real magnet for trout and perch.
