Chub softbaits in 8,5cm with a special scent for trouts. Contains 9 pcs.

from 3,99 €* 3,99 €

The new soft baits Chub 85 by Trout Bait were developed in cooperation with the reigning Vice World Champion of the World Predator Classic 2018, Ugis Gross. If you take a closer look at the small trout traps, you will immediately notice that they are extremely flexible due to the many ribs and the very soft rubber compound, which leads the target fish to swallow the bait immediately because of the very natural feeling. Even the extreme garlic scent attracts attention immediately and attracts not only trout, but also perch and zander. In addition to garlic, the attractant cheese is also available, which is no less appealing. The attractant is not applied to the shad like many other, but incorporated into the rubber compound, whereby the scent is never lost.

The small baits are fished with a single hook, which is fixed only in the head part, or as Dropshot variant or with Jighead Hooks.

The Mix-5 color is an assortment of 3 colors each. These are put together as follows: 3 x White Pink, 3 x Black Pink and 3 x Orange Green.
